Professional Summary

I am a passionate software developer with a keen interest in creating innovative solutions and enhancing user experiences. Known for my curiosity and adaptability, I thrive on solving complex problems and continuously learning new technologies. I bring a positive attitude and a commitment to excellence in every project I undertake.

Education

Vivekananda Institute of Professional Studies

MCA (2021-2023)

CGPA : 9.1/10

Jagan Institute of Management Studies

BCA (2018-2021)

CGPA : 7.5/10

Experience

FormulaQ Solutions Pvt Ltd

Hyderabad, Telangana

Software Developer

Dec 2023 – Nov 2024

- Developed and deployed scalable **web applications** using **JavaScript**, **React.js**, and **Redux**, leveraging Context API, props, and Browser Router for seamless state management and efficient routing.
- Lead **front-end development** projects with **React.js**, creating dynamic and responsive user interfaces that significantly increased user engagement and satisfaction.
- Redesigned the company website with **Tailwind CSS** and **React.js**, reducing load times by **40%**, improving accessibility standards, and boosting overall user satisfaction ratings by **25%**.
- Enhanced application security and data integrity by implementing **tokenization** techniques, reducing potential vulnerabilities.
- Deployed and managed applications on **Amazon EC2**, configured **S3 buckets** for secure storage, and implemented automation, monitoring, and security measures to ensure scalability and optimal performance.

Skills

Programming Languages: JavaScript, C++, Python

Frontend Development: React.js, Vite, Tailwind CSS, Bootstrap, Redux, MobX, Webpack

Backend Development: Node.js, RESTful APIs, JWT, Bcrypt

Software Development: Data Structures, Object-Oriented Programming, Problem-Solving Skills

Databases: PostgreSQL, NoSQL

Cloud & DevOps: AWS(EC2, S3), Jenkins, Docker

Projects

Social publishing platform (Sprsh) [🔗](#)

Dec 2024 - Feb 2025

Freelancer

- Worked on a modern blogging platform called “sprsh”, using the **MERN** stack, enabling users to create, read, and interact with blog posts seamlessly.
- Built an intuitive, responsive frontend using **React**, featuring a rich text editor for creating posts, real-time comments, dynamic blog listings, and social sharing options.
- Designed the backend with **Node.js** and **Express**, ensuring secure user authentication and efficient API management using **JWT** and **Bcrypt**.

Chat-App Application (Snappy) [🔗](#)

May - 2023

- Developed a responsive frontend using **React.js**, ensuring an intuitive user interface across devices.
- Engineered the backend with **Node.js** and **WebSocket** for real-time, bi-directional communication between users.
- Designed and implemented secure user authentication using **JWT** and password hashing techniques.
- Integrated **MongoDB** for efficient data storage and retrieval of user credentials and chat messages.
- Language/Tool: HTML, CSS, JavaScript, Reactjs, Nodejs.
